# Using
clickview

1

Open the Vivi App and click **Play Video.**

2

Select **ClickView** under Video Sources.

3

Open a browser and go to **clickview.com.au**.

Log-in with your school credentials. Navigate within ClickView to select the video to play.

4

On the next screen, click the **Play on Device** icon located within the video player controls.

It's located in the bottom right-hand corner.

5

This will bring up the **Select a device** screen. Select the classroom you are currently teaching in.

ClickView will now send the video to the Vivi Box in your classroom and will play automatically.
